## Signature Hand

Designers often develop a singular and distinct flourish that they articulate in varying forms

### BESPOKE METAL

Specialising in bespoke metalworks, Tôlerie Forézienne has created a range of product with diverse applications from food processing to interior décor, furniture and furnishings, and advertising boards and signs. Its recent production is a range of versatile urban furniture Rockgrowth developed in collaboration with French artist Arik Levy.

### BETWEEN PAPER AND BRASS

Designed especially for Thomas Erber's 4th Edition of Cabinet de Curiosites, Francois Campsaur's limited-edition lamp l'espace entre les gouttes is a synchrony between a piece of paper and a sheet of brass. The light that is reflected from the brass part is diffused through the paper to create an illuminated contrast.

### LOW-TECH, HI-FI

No battery, no electricity, no wires—Megaphone is a low-tech horn-shaped amplifier compatible with all the iPhone and iPod Touch second to fifth generation. The amplifier is made of ceramic while the tripod is made of solid Italian walnut. Available in white, black, gold, copper and platinum.

Megaphonemini is the smaller predecessor of Megaphone, and is available in glossy white and matt black.
