

# \_banki by Garib M'Zouri

## Recharger les batteries / Recharge batteries

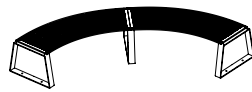

Banki se compose d'un banc droit et d'un banc courbe (1/4 de cercle). Facile d'installation, l'ensemble des éléments est indépendant et permet de multiples agencements selon les besoins et les contraintes liées au lieu d'implantation. Banki dispose d'une borne de rechargement USB, son alimentation est assurée via un panneau solaire.

Banki is composed of one straight bench and one curved bench (a quarter circle). Easy to set up, all the elements are independent and enable multiple arrangements, according to the needs and constraints of the location. Banki is equipped with a USB charging terminal. It is powered by a solar panel.
